Sneha Sharma

Machine Learning Engineer | sneha.sharma@example.com | +91 9722334455

EDUCATION

B.Tech in Data Science & Machine Learning (2020-2024)

TECHNICAL SKILLS

Python, PyTorch, Scikit-Learn, Pandas, NumPy, Machine Learning, Data Preprocessing, Docker, FastAPI, Git

PROJECTS

Student Performance Prediction

Engineered predictive regression and classification pipelines using Scikit-Learn and Pandas. Implemented data preprocessing, feature engineering, cross-validation, and ROC-AUC model evaluation.

Plant Disease Image Classifier

Trained convolutional neural network models using PyTorch on leaf datasets. Deployed prediction endpoints via FastAPI containerized with Docker.

EXPERIENCE

AI/ML Research Intern (TechLabs, 5 months)

Conducted exploratory data analysis, hyperparameter tuning for gradient boosted trees, and statistical model evaluation for healthcare datasets.
